RE: Skip Tracing Program

Dear Steve:

I wanted to write a note to let you know how much I enjoyed the course that you presented at the Tag Messenger Service office May 2009. I learned a great deal of information on skip tracing, finding assets, equipment that I may be able to use, software, phones, and even marketing and communications for my company. I was impressed with the wide range of all these areas covered in two days with you. I feel that the course was well worth the price. I would recommend this course to any person that has some experience in the field and enough knowledge to understand legalities and "grey" areas for their situation and state location.

Please let me know if you have any questions. My phone, current mailing address, and email are listed above. Thank you!

Sincerely,

Cedria King, President
